JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

Accumulation layer
Study of nanocrystalline TiO_2 (anatase) electrode in the accumulation regime (Kavan et al.) 93
Aerobic conditions
Amperometric enzyme electrode for aerobic glucose monitoring prepared by glucose oxidase immobilized in poly(vinylferrocenium) (Gülce et al.) 63
Amperometric enzyme electrode
Amperometric enzyme electrode for aerobic glucose monitoring prepared by glucose oxidase immobilized in poly(vinylferrocenium) (Gülce et al.) 63
Amperometric sensor
Kinetic behaviour of an amperometric biosensor made of an enzymatic carbon paste and a Nafion® gel investigated by rotating electrode studies (Andrieux et al.) 141
Aniline derivatives
Electropolymerization of aniline derivatives in non-aqueous solution without a proton donor (Yamada et al.) 71

Carbon paste electrode
Kinetic behaviour of an amperometric biosensor made of an enzymatic carbon paste and a Nafion® gel investigated by rotating electrode studies (Andrieux et al.) 141
Carbon-rich molecular rods
Electrochemical properties of tetraethynylethenes, fully cross-conjugated π-chromophores, and tetraethynylethene-based carbon-rich molecular rods and dehydroannulenes (Boudon et al.) 187
Charge transfer
Charge transfer distance between tris(2,2′-bipyridine)ruthenium(II) redox centers incorporated in Nafion® membrane (Yagi et al.) 169
Charge transport mediators
Mass transport study of Nafion® coatings saturated with $[Os(bpy)_3]^{2+}$ by an electrochemical quartz crystal microbalance (Shin et al.) 87
Chemical compositions
Morphology and chemical compositions of surface films of lithium deposited on a Ni substrate in nonaqueous electrolytes (Kanamura et al.) 49
π-Chromophores
Electrochemical properties of tetraethynylethenes, fully cross-conjugated π-chromophores, and tetraethynylethene-based carbon-rich molecular rods and dehydroannulenes (Boudon et al.) 187
CO_2
Electrochemical reduction of high pressure CO_2 at Pb, Hg and In electrodes in an aqueous $KHCO_3$ solution (Todoroki et al.) 199
Computer simulation
On the mechanism of electrochemical ion transfer reactions (Pecina et al.) 29
Conducting polymers
A new model for electrochemical oxidation of polypyrrole under conformational relaxation control (Otero et al.) 211
Conformational relaxation control
A new model for electrochemical oxidation of polypyrrole under conformational relaxation control (Otero et al.) 211
Conjugated oligomers
Electrochemical properties of tetraethynylethenes, fully cross-conjugated π-chromophores, and tetraethynylethene-based carbon-rich molecular rods and dehydroannulenes (Boudon et al.) 187
Corrosion rate
Frequency dispersion of harmonic components of the current of an electrode process (Darowicki) 81
Coulostatic
Transient methods: comparison of three methods employing the Cd^{2+} |Cd(Hg) couple (Kirowa-Eisner et al.) 127
Cryopreservation
Electrochemical and thermal properties of dimethylsulfoxide–electrolyte systems below freezing point and possible applications in cryopreservation systems (Huang et al.) 117
Cu ions
Electrochemical behavior of sugar investigated using a carbon paste electrode modified with copper(II)–porphyrin (Sugawara et al.) 263
Cytochrome *c*
Electroreflectance spectroscopic study of the electron transfer rate of cytochrome *c* electrostatically immobilized on the ω-carboxyl alkanethiol monolayer modified gold electrode (Feng et al.) 149

Dehydroannulenes
Electrochemical properties of tetraethynylethenes, fully cross-conjugated π-chromophores, and tetraethynylethene-based carbon-rich molecular rods and dehydroannulenes (Boudon et al.) 187
Diffusion limited current
Two-dimensional implementation of the finite element method with singularity correction for diffusion limited current at an unshielded disc electrode (Galceran et al.) 17
Dimethylsulphoxide
Electrochemical and thermal properties of dimethylsulfoxide–electrolyte systems below freezing point and possible applications in cryopreservation systems (Huang et al.) 117

Electrochemical behavior
Electrochemical behavior of sugar investigated using a carbon paste electrode modified with copper(II)–porphyrin (Sugawara et al.) 263
Electrochemical impedance
Electrochemical impedance of solutions of polysulfides in liquid ammonia: experimental evidence for the Gerischer impedance (Levillain et al.) 103
Electrochemical quartz crystal microbalance
Mass transport study of Nafion® coatings saturated with $[Os(bpy)_3]^{2+}$ by an electrochemical quartz crystal microbalance (Shin et al.) 87
Electrodeposition
Morphology and chemical compositions of surface films of lithium deposited on a Ni substrate in nonaqueous electrolytes (Kanamura et al.) 49
Electron transfer rate
Electroreflectance spectroscopic study of the electron transfer rate of cytochrome *c* electrostatically immobilized on the ω-carboxyl alkanethiol monolayer modified gold electrode (Feng et al.) 149

Electro-oxidation
A new model for electrochemical oxidation of polypyrrole under conformational relaxation control (Otero et al.) 211
Mechanistic study of the nitration of naphthalene by its electrochemical oxidation in the presence of nitrite ion in acetonitrile solutions (Cortona et al.) 245
Electrooxidation
Electrooxidation of alcohols and sugars catalysed on a nickel oxide modified glassy carbon electrode (Berchmans et al.) 267
Electropolymerization
Electropolymerization of aniline derivatives in non-aqueous solution without a proton donor (Yamada et al.) 71
Electroreduction
Electrochemical reduction of high pressure CO_2 at Pb, Hg and In electrodes in an aqueous $KHCO_3$ solution (Todoroki et al.) 199
Electrochemical study of intramolecular charge transfer complexes derived from 1,4-naphthoquinone. Part 1. Electroreduction (Turovska et al.) 229
Electrosorption
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253

Finite element method
Two-dimensional implementation of the finite element method with singularity correction for diffusion limited current at an unshielded disc electrode (Galceran et al.) 17
Formic acid oxidation
Oxidation of formic acid on Pt(111) electrodes modified by irreversibly adsorbed tellurium (Herrero et al.) 161
Frequency dispersion
Frequency dispersion of harmonic components of the current of an electrode process (Darowicki) 81

Galvanostatic: Modified coulostatic
Transient methods: comparison of three methods employing the Cd^{2+} |Cd(Hg) couple (Kirowa-Eisner et al.) 127
Gerischer impedance
Electrochemical impedance of solutions of polysulfides in liquid ammonia: experimental evidence for the Gerischer impedance (Levillain et al.) 103
Gibbs energy
On the mechanism of electrochemical ion transfer reactions (Pecina et al.) 29
Glassy carbon
Electrooxidation of alcohols and sugars catalysed on a nickel oxide modified glassy carbon electrode (Berchmans et al.) 267
Glucose biosensor
Amperometric enzyme electrode for aerobic glucose monitoring prepared by glucose oxidase immobilized in poly(vinylferrocenium) (Gülce et al.) 63
Glucose oxidase
Amperometric enzyme electrode for aerobic glucose monitoring prepared by glucose oxidase immobilized in poly(vinylferrocenium) (Gülce et al.) 63
Kinetic behaviour of an amperometric biosensor made of an enzymatic carbon paste and a Nafion® gel investigated by rotating electrode studies (Andrieux et al.) 141
Gold
Phase transition in uracil adlayers on electrochemically prepared island-free Au(100)–(1 × 1) (Hölzle et al.) 271
Gold electrode
Electroreflectance spectroscopic study of the electron transfer rate of cytochrome *c* electrostatically immobilized on the ω-carboxyl alkanethiol monolayer modified gold electrode (Feng et al.) 149

Harmonic analysis
Frequency dispersion of harmonic components of the current of an electrode process (Darowicki) 81
Hg electrodes
Electrochemical reduction of high pressure CO_2 at Pb, Hg and In electrodes in an aqueous $KHCO_3$ solution (Todoroki et al.) 199
Hydrogen
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253
Hydrophobic Nafion® gel layer
Kinetic behaviour of an amperometric biosensor made of an enzymatic carbon paste and a Nafion® gel investigated by rotating electrode studies (Andrieux et al.) 141
Hydroxide
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253

Impedance
Charge transfer at photoelectrochemical solar cells: a comparison of data from impedance and light-modulated spectroscopy (Schefold) 35
In electrodes
Electrochemical reduction of high pressure CO_2 at Pb, Hg and In electrodes in an aqueous $KHCO_3$ solution (Todoroki et al.) 199
Intramolecular charge transfer complexes
Electrochemical study of intramolecular charge transfer complexes derived from 1,4-naphthoquinone. Part 1. Electroreduction (Turovska et al.) 229
Ion transfer reactions
On the mechanism of electrochemical ion transfer reactions (Pecina et al.) 29
Ion transport equations
Reducing systems of ion transport equations to systems of equations of multi-component diffusion in non-electrolytic solutions (Engelhardt, Strehblow) 7

Light-modulated spectroscopy
Charge transfer at photoelectrochemical solar cells: a comparison of data from impedance and light-modulated spectroscopy (Schefold) 35
Li surface films
Morphology and chemical compositions of surface films of lithium deposited on a Ni substrate in nonaqueous electrolytes (Kanamura et al.) 49
Lithium insertion
Study of nanocrystalline TiO_2 (anatase) electrode in the accumulation regime (Kavan et al.) 93

Mass transport
Mass transport study of Nafion® coatings saturated with $[Os(bpy)_3]^{2+}$ by an electrochemical quartz crystal microbalance (Shin et al.) 87
Membrane electrodes
Mass transport study of Nafion® coatings saturated with $[Os(bpy)_3]^{2+}$ by an electrochemical quartz crystal microbalance (Shin et al.) 87
Microelectrodes
Conditions of applicability of the superposition principle in potential multipulse techniques: implications in the study of microelectrodes (Molina et al.) 1
Modified electrode
Electrochemical behavior of sugar investigated using a carbon paste electrode modified with copper(II)–porphyrin (Sugawara et al.) 263
Molecular dynamics
On the mechanism of electrochemical ion transfer reactions (Pecina et al.) 29

Morphology
Morphology and chemical compositions of surface films of lithium deposited on a Ni substrate in nonaqueous electrolytes (Kanamura et al.) 49
Multi-component diffusion
Reducing systems of ion transport equations to systems of equations of multi-component diffusion in non-electrolytic solutions (Engelhardt, Strehblow) 7

Nafion membrane
Charge transfer distance between tris(2,2′-bipyridine)ruthenium(II) redox centers incorporated in Nafion® membrane (Yagi et al.) 169
1,4-Naphthoquinone
Electrochemical study of intramolecular charge transfer complexes derived from 1,4-naphthoquinone. Part 1. Electroreduction (Turovska et al.) 229
Nickel oxide
Electrooxidation of alcohols and sugars catalysed on a nickel oxide modified glassy carbon electrode (Berchmans et al.) 267
Ni electrode
Morphology and chemical compositions of surface films of lithium deposited on a Ni substrate in nonaqueous electrolytes (Kanamura et al.) 49
Nitration naphthalene
Mechanistic study of the nitration of naphthalene by its electrochemical oxidation in the presence of nitrite ion in acetonitrile solutions (Cortona et al.) 245
Nonaqueous electrolytes
Morphology and chemical compositions of surface films of lithium deposited on a Ni substrate in nonaqueous electrolytes (Kanamura et al.) 49
Non-aqueous solvents
Reduction of S_3^- and S_6^{2-} polysulfide ions in liquid ammonia (Levillain et al.) 205

Organic compounds
Electrooxidation of alcohols and sugars catalysed on a nickel oxide modified glassy carbon electrode (Berchmans et al.) 267
Oscillatory behavior
Electrochemical oscillatory behavior under a scanning electrochemical microscopic configuration (Mao et al.) 155
Oxygen
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253

Pb electrodes
Electrochemical reduction of high pressure CO_2 at Pb, Hg and In electrodes in an aqueous $KHCO_3$ solution (Todoroki et al.) 199
Perchlorate
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253
Polypyrrole
A new model for electrochemical oxidation of polypyrrole under conformational relaxation control (Otero et al.) 211
Polysulphides
Electrochemical impedance of solutions of polysulfides in liquid ammonia: experimental evidence for the Gerischer impedance (Levillain et al.) 103
Poly(vinylferrocenium)
Amperometric enzyme electrode for aerobic glucose monitoring prepared by glucose oxidase immobilized in poly(vinylferrocenium) (Gülce et al.) 63
Potential multipulse techniques
Conditions of applicability of the superposition principle in potential multipulse techniques: implications in the study of microelectrodes (Molina et al.) 1
Pressure effects
Electrochemical reduction of high pressure CO_2 at Pb, Hg and In electrodes in an aqueous $KHCO_3$ solution (Todoroki et al.) 199
Propylene carbonate
Study of nanocrystalline TiO_2 (anatase) electrode in the accumulation regime (Kavan et al.) 93
Pt(111) electrode
Oxidation of formic acid on Pt(111) electrodes modified by irreversibly adsorbed tellurium (Herrero et al.) 161
Pt electrodes
Electrochemical behaviour of aqueous SO_2 at Pt electrodes in acidic medium. A voltammetric and in situ Fourier transform IR study. Part I. Oxidation of SO_2 on Pt electrodes with sulphur–oxygen adsorbed species (Quijada et al.) 217

Quinone moiety
Electrochemical study of intramolecular charge transfer complexes derived from 1,4-naphthoquinone. Part 1. Electroreduction (Turovska et al.) 229

Reaction mechanisms
Mechanistic study of the nitration of naphthalene by its electrochemical oxidation in the presence of nitrite ion in acetonitrile solutions (Cortona et al.) 245
Redox centers
Charge transfer distance between tris(2,2′-bipyridine)ruthenium(II) redox centers incorporated in Nafion® membrane (Yagi et al.) 169
Redox properties
Electrochemical properties of tetraethynylethenes, fully cross-conjugated π-chromophores, and tetraethynylethene-based carbon-rich molecular rods and dehydroannulenes (Boudon et al.) 187
Reduction mechanism
Reduction of S_3^- and S_6^{2-} polysulfide ions in liquid ammonia (Levillain et al.) 205
Rhodium
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253
Rotating electrode experiments
Kinetic behaviour of an amperometric biosensor made of an enzymatic carbon paste and a Nafion® gel investigated by rotating electrode studies (Andrieux et al.) 141

Scanning electrochemical microscopy
Electrochemical oscillatory behavior under a scanning electrochemical microscopic configuration (Mao et al.) 155
Self-assembled monolayers
Electroreflectance spectroscopic study of the electron transfer rate of cytochrome *c* electrostatically immobilized on the ω-carboxyl alkanethiol monolayer modified gold electrode (Feng et al.) 149
Semiconductor electrochemistry
Charge transfer at photoelectrochemical solar cells: a comparison of data from impedance and light-modulated spectroscopy (Schefold) 35
SO_2
Electrochemical behaviour of aqueous SO_2 at Pt electrodes in acidic medium. A voltammetric and in situ Fourier transform IR study. Part I. Oxidation of SO_2 on Pt electrodes with sulphur–oxygen adsorbed species (Quijada et al.) 217
Sugar
Electrochemical behavior of sugar investigated using a carbon paste electrode modified with copper(II)–porphyrin (Sugawara et al.) 263

Sulplate
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253
Superposition principle
Conditions of applicability of the superposition principle in potential multipulse techniques: implications in the study of microelectrodes (Molina et al.) 1
Surface reconstruction
Phase transition in uracil adlayers on electrochemically prepared island-free Au(100)–(1 × 1) (Hölzle et al.) 271

Tellurium- modified electrode
Oxidation of formic acid on Pt(111) electrodes modified by irreversibly adsorbed tellurium (Herrero et al.) 161
Tetraethyhylethenes
Electrochemical properties of tetraethynylethenes, fully cross-conjugated π-chromophores, and tetraethynylethene-based carbon-rich molecular rods and dehydroannulenes (Boudon et al.) 187
2-Thiophenecarbonyl chloride
Electrochemical reduction of 2-thiophenecarbonyl chloride at carbon and mercury cathodes in acetonitrile (Mubarak) 239
Titanium dioxide
Study of nanocrystalline TiO_2 (anatase) electrode in the accumulation regime (Kavan et al.) 93
Transient methods
Transient methods: comparison of three methods employing the Cd^{2+} |Cd(Hg) couple (Kirowa-Eisner et al.) 127
Trifluoromethyl sulphonate
Study of nanocrystalline TiO_2 (anatase) electrode in the accumulation regime (Kavan et al.) 93
Tris(2,2′-bipyridine)ruthenium(II)
Charge transfer distance between tris(2,2′-bipyridine)ruthenium(II) redox centers incorporated in Nafion® membrane (Yagi et al.) 169

Uracil condensation
Phase transition in uracil adlayers on electrochemically prepared island-free Au(100)–(1 × 1) (Hölzle et al.) 271

Voltammetry
Reactions involving H, OH and O species on rhodium in $H_2SO_4 \cdot 12H_2O$ and $HClO_4 \cdot 5.5H_2O$ in the range 198–298 K (Florit et al.) 253
